Have you ever seen a fashion show taking place at a nightclub? Well, at the final edition of HT City Club Fashion Nights 2019 that took place at Privee, Shangri-la's Eros Hotel, it was all that and more.

Designer Joy Mitra showcased his collection that included a variety of fusion ensembles — ranging from anarkalis, skirts with jackets, pleated pants for women, and kurta pajamas and sherwani for men. It was a riot of colours with attires in dark hues such as maroons, yellows, black, to soothing whites and pinks. Talking about the

collection, the designer said, "The garments are born out of the Indian aesthetic; there's the use of Indian embroidery and Indian textiles such as silks, chanderi and cotton, which is combined with a lot of intricate hand embroidery, giving it a modern twist and tadka."
